Why SAP ABAP Course?

01

Core of Every SAP System

ABAP is the backbone language behind all SAP applications — the most fundamental skill for SAP technical careers.

02

S/4 HANA & RAP Ready

Learn the ABAP RESTful Programming Model and modern S/4 HANA development, not just legacy ABAP.

03

OOPS & Clean ABAP

Master classes, inheritance, interfaces, polymorphism and ABAP Unit testing — the industry standard today.

04

Code Pushdown to HANA

CDS Views, AMDP and performance optimization techniques that exploit the HANA in-memory database.

05

OData & Fiori Integration

Build OData services and custom Fiori apps — connecting ABAP logic to modern SAP user experiences.

06

Enhancements & BADIs

Extend standard SAP safely with User Exits, BADIs and the Enhancement Framework — a key consultant skill.

07

Forms & Output

Smart Forms and Adobe Forms for professional document output integrated with SAP processes.

08

Interfaces & Integration

IDocs, RFCs and interface development to connect SAP with external systems reliably.

09

Real-Time Projects

Hands-on migration checks, custom reports, debugging and performance tuning on a live SAP S/4 HANA server.

10

High Career Demand

One of the most in-demand SAP technical skills, opening doors to well-paid developer & technical consultant roles.

Career Scope & Program Details

ENTRY LEVEL	• Associate Developer • Junior ABAP Developer
JUNIOR LEVEL	• SAP ABAP Developer • Technical Consultant • Senior Developer
MID LEVEL	• Lead Developer • Technical Architect
SENIOR LEVEL	• Project Manager • Program Manager • Delivery Head
EXECUTIVE LEVEL	• Practice Head • SAP Director • VP – ERP Solutions

Program Details — SAP ABAP Course

SAP ABAP is the core programming language powering every SAP system, making it one of the most essential and in-demand SAP technical skills. Doing the SAP ABAP course at DroIT Solutions puts you in a strong position with industry-graded, in-demand skills. Our 3-month, job-oriented program covers ABAP in depth — from core programming and OOPS to CDS Views, RAP, OData/Fiori integration and ABAP on HANA — with practical, hands-on practice on a live SAP S/4 HANA server. Through a well-structured, instructor-led program you gain real-time project exposure and become job-ready for ABAP developer and technical consultant roles.

Key Features

Real-Time Project Training

Learn with live, real-world scenarios for true industry exposure.

Industry-Expert Trainers

Sessions led by certified, experienced SAP professionals.

Free SAP Server Access

Practice hands-on coding on a live SAP S/4 HANA server.

Classroom & Online

Flexible learning—attend live in class or online.

Live Projects & Practice

Hands-on assignments that build practical confidence.

100% Placement Assistance

Get Trained, Get Hired—end-to-end placement support.

Flexible Batch Timings

Weekday and weekend batches to fit your schedule.

Resume & Mock Interviews

Profile building, mock interviews and grooming sessions.

Doubt-Clearing Support

Personal attention with regular doubt-clearing sessions.

Tie-ups with 100+ Companies

A strong hiring network for direct placement opportunities.

Program Curriculum

Month 1 — ABAP Foundations & Core Programming on S/4HANA.

Module 1 ABAP Basics & S/4HANA Introduction

- ABAP Workbench (SE80) & Eclipse IDE (ADT)
- Data types, operators & control structures
- S/4HANA architecture changes
- ABAP RESTful Programming Model (RAP) introduction

Module 2 Core ABAP Programming

- Internal tables & structures
- Modularization (subroutines & function modules)
- Exception handling
- ALV reports (classic & interactive)

Program Curriculum

Month 2 — Database, OOPS & Enhancements.

Module 3 Database Programming

- Open SQL vs Native SQL
- CDS Views (Core Data Services)
- AMDP (ABAP Managed Database Procedures)
- Table customizing & enhancements

Module 4 OOPS ABAP

- Classes, methods & inheritance
- Interfaces & polymorphism
- Events & exception handling
- ABAP Unit testing

Module 5 Enhancements & Modifications

- User Exits & BAdIs
- Enhancement Framework
- Implicit & explicit enhancements
- Modification Assistant

Program Curriculum

Month 3 — Forms, Fiori, ABAP on HANA & Real-Time Projects.

Module 6 Smart Forms & Adobe Forms

- Form designing & layouts
- Data retrieval logic
- Integration with output management

Module 7 Workflow & WebDynpro

- Workflow configuration
- Business events & tasks
- WebDynpro components & navigation

Module 8 OData & Fiori Integration

- OData service creation
- Fiori elements & annotations
- Custom Fiori apps development

Module 9 ABAP on HANA

- Code pushdown techniques
- Performance optimization
- HANA Studio integration

Module 10 Real-Time Projects

- S/4HANA migration checks
- Custom report development
- Interface development (IDocs, RFCs)
- Debugging & performance tuning

For Whom · Outcomes · Eligibility

For Whom Is This Course?

- ✓ Engineering & Computer Science graduates
- ✓ Software developers & programmers
- ✓ Functional consultants moving to technical
- ✓ BCA / MCA / BSc-IT students
- ✓ Fresh graduates aiming for SAP technical roles
- ✓ Working professionals upskilling in SAP

Program Outcomes

- ✓ Write core & object-oriented ABAP programs confidently
- ✓ Develop with the RESTful Programming Model (RAP)
- ✓ Apply enhancements, BADIs & interface development
- ✓ Build CDS Views, AMDP & ALV reports on S/4HANA
- ✓ Create OData services & custom Fiori apps
- ✓ Become job-ready for SAP ABAP developer roles

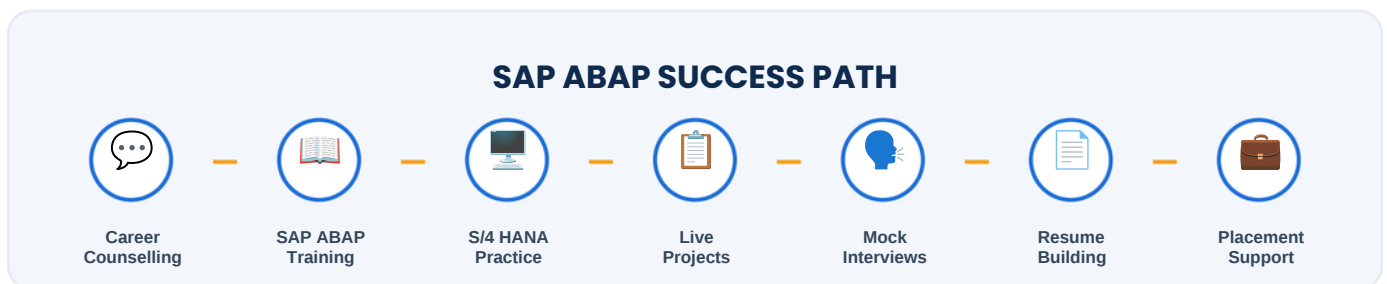

Eligibility Criteria

Any Bachelor's degree (Engineering, Computer Science, IT or Science). Candidates with basic programming logic or any coding background have an advantage, but freshers with a strong interest in SAP development are welcome; prior ABAP knowledge is helpful but not mandatory.

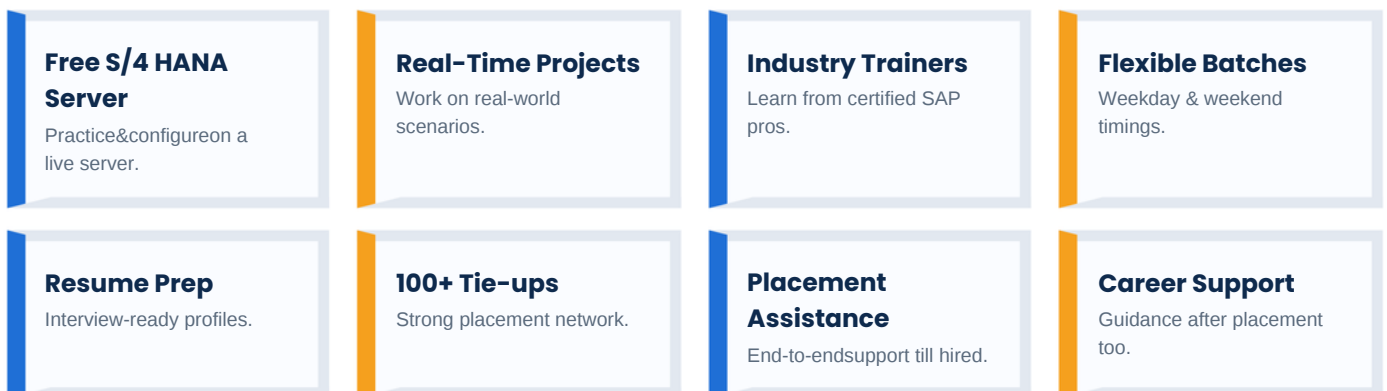

Learner Journey

A simple, guided path from enrolment to placement.

Why Choose DroIT Solutions?

Training Methodology & Certification

Our Training Methodology

Live Projects

Real projects during the course build experiential, in-depth practical understanding.

Practical Pedagogy

A practice-first, hands-on approach keeps every session focused and applied.

Personal Attention

Doubt-clearing and one-to-one support ensure no learner is left behind.

Certification-Focused

Training is aligned to certification and real interview expectations.

Certification Process

1

Complete

Finish the full ABAP curriculum with hands-on practice.

2

Assessment

Demonstrate coding & real-time scenario skills.

3

Certificate

Receive your course completion certificate.

4

Get Hired

Get interview-ready and connected to hiring partners.

Placements & Hiring Support

Get Trained, **Get Hired.**

Leading Training & Placement Institute in Pune, committed to 100% job assistance.
We don't just train you —we connect you to our hiring network and support you until you're placed.

Snehal Deshmukh

28 March 2026

The curriculum is well structured and focused on industry requirements. Mock interviews, resume preparation, and practical assignments helped me secure my first SAP opportunity.

SAP FICO Analyst

AM

Akash More

22 March 2026

The practical approach of teaching SAP FICO helped me understand concepts much faster. The trainers were patient, supportive, and always ready to clear doubts. Highly recommended for beginners.

SAP FICO Consultant

NK

Neha Kulkarni

15 March 2026

I joined with very little knowledge of SAP, but the structured curriculum and hands-on assignments helped me build confidence. The placement guidance was extremely helpful.

SAP FICO Analyst

PJ

Pratik Joshi

10 March 2026

Excellent training quality and real-time project exposure. The faculty explained every concept with practical business scenarios, making learning easy and interesting.

SAP FICO Consultant

RP

Rutuja Pawar

6 March 2026

The SAP server access and live practice sessions were the biggest advantage of this course. The trainers focused on both technical knowledge and interview preparation.

Finance Associate

SS

Sanket Shinde

1 March 2026

One of the best SAP learning experiences I have had. The mock interviews and resume-building sessions helped me prepare for the recruitment process professionally.

SAP Support Consultant

PP

Priyanka Patil

25 Feb 2026

The trainers have strong industry knowledge and explain topics in a very simple manner. The learning environment is professional and motivating.
